The Viking design

Photo: Susby Johansson

Viking Toys embody a unique product design that adds to and helps strengthen the brand value of the line.

As head designer for Viking Toys, it is my mission to continue along this successful path and to accentuate the brand identity in all new products and concepts.

A typical product from Viking Toys should be designed based on classical, basic play values and combine these values with a modern perspective of the child's world of today. My goal is to create toys that enrich play, last for play and make children want to play.

Henrik Johansson
Viking Toys
designer
since 2007

In order to design good toys, one must have a feeling for the spirit of children's play. Actually, I think the designer himself must be a person who likes to play and diddle like a child as I do.

I prefer to design by constructing a model of the product bit by bit, in cardboard or wood. At Viking, we often decide at our product meetings what should be designed. Sometimes I have my own ideas which I present to Viking Toys.

To even be considered for the Viking range, the toy must meet the Viking 5S-criteria; it must be SAFE, SIMPLE, STRONG, SOFT and SILENT. And safety is without a doubt the most important "S" for Viking.

Björn Alskog
Viking Toys designer 1996–2007

Safe

Designed and tested to be safe for children 1 year and up. We use only the best toxic free, non-phthalate & food grade materials available.

Simple

Timeless design which appeals to both parents and children for several generations and, stimulates children's imagination.

Strong

Extremely durable materials make our toys almost indestructible.

Silent

Acclaimed by parents and teachers alike, the soft materials allow for practically soundless play.

Soft

Carefully chosen soft materials which protect both children, furniture and floors.

Dishwasher Safe

Thanks to our choice of materials, each toy is easy to clean in the dishwasher.

SA Toy of the
year awards
2004 in
South Africa
